The integrated insurance plan

Favorit Bestcare: The integrated basic insurance plan

Favorit Bestcare is a basic insurance plan that provides you with more than just a discount on your premiums. With the help of Compassana, it links together all of the professionals involved in your treatment and puts the focus on you as an individual. The result is better treatment and simpler management of your health matters.

With Favorit Bestcare, you get an attractive discount on your premiums and benefit from a reduced deductible. We can offer you especially low premiums because of your preference for economical treatments and your responsible use of medical services. The following conditions are part of your insurance contract.

How Favorit Bestcare works

- You contact the santé24 online practice on +41 44 404 86 85 or visit a Bestcare partner practice directly whenever you experience a health problem. Alternatively, you can also use SymptomCheck in the Benecura app, where you will receive a recommendation based on your answers to some questions.
- If your health problem can't be fully resolved in this way, santé24 or your doctor at the Bestcare partner practice will refer you to a specialist.
- You are provided with a TytoHome device free of charge, which santé24 can use during consultations as a diagnostic tool and for treatment recommendations.
- The Compassana app is used to manage the exchange of data between Bestcare service providers in order to ensure integrated care.
- No co-payment (does not affect your excess and deductible) for any telemedicine services provided by santé24 (advice, consultations with experts and doctors), as long as basic insurance covers them. Exceptions include: advice and consultations in conjunction with nutrition advice and the psychological/psychiatric counselling service.
